

Firearms Work Warranty

Your CAS Action Work, done by GAA is warranted against breakage and malfunction, caused by GAA workmanship, for as long as you have it. Warranty exceptions are any issues caused by tampering or any non GAA approved adjustments or modifications, your improper use or operation, any failure to keep the firearm clean and lubricated, and where applicable, properly adjusted*. Final determination of the root cause of any issue will be at the sole discretion of GAA.

***- In the case of short-stroke pistols, it is critical that the hammer strut stop be adjusted to a tolerance no greater than .002 between the bottom of the strut and the top of the stop, when in the fully cocked, then relaxed position, and thread-locked into place. With use, this adjustment can sometimes become "out-of-tolerance" and cause cylinder "skip". This condition can lead to a costly repair process and is NOT covered under the above warranty.**

ANY tampering by NON GAA approved Individuals will result in the VOIDING of the warranty in its entirety. There are NO exceptions!

Customer is responsible for shipping back to GAA. GAA will pay Return Shipping after repairs ONLY via your FFL dealer.
